

Scientific Program

The latest updates by world-renowned experts in the field of pediatric infectious diseases. The World Society for Pediatric Infectious Diseases (WSPID) is a non-profit organization and a confederation of national and international Pediatric Infectious Diseases (PID) societies.

The main objectives of WSPID are to create a global network of PID societies for exchange of information and knowledge between the societies. The WSPID particularly aspires to promote the growth of PID societies in lower income countries and to promote the study and teaching of infectious diseases in those countries.

The International Scientific Committee has planned a diverse and interesting program for you. As part of the program, we will have a scale of different educational and scientific sessions addressing your needs as a professional in pediatric infectious diseases that will provide you with take-home value.
